WEDNESDAY, OCT. 16, 1907.

Coal is going up and cold is coming down.

What will Richmond do next? Get ready for Christmas.

With all her honors Richmond is bearing herself with genuine modesty.

There is more moving power in a social smile than in anything of like size on earth or sea.

Lynchburg is still "on top." Of course she is. What do those hills mean if it does not mean that?

The citizens of Victoria insist upon it that there is room in Virginia for another city, and so say we all. Come to you young sister, and "may your shadow never grow less."

The man who can entertain a crowd in an address on a Fair ground, when people go for fun and frolic is already bigger than a President even though that President should be named Taft.

Canals, railways and by water from the lakes to the gulf and all at the expense of the government, but not a dollar for public highways. And yet how honeyed the words of the President and the rest of the politicians when they talk to the farmers in mass meeting. The wonder is that the farmer don't rise in their might and turn out President and politician and keep on turning out until they can get into their employ servants and not masters, and of ordinary good sense rather than victims of the big head.

During the absence of the editor the office force takes the liberty of publishing the following from the Times-Dispatch of October 11th: "One of the first out-of-town vice-presidents of the Bryan meeting to arrive on the ground was Editor A. H. Clement, of the Appomattox and Buckingham Times, who came in last night. Mr. Clement appeared more like a New York society leader than a country editor, having been faultlessly attired in the latest type of a Prince Albert suit, high hat and patent leather shoes. He was moving about among his old friends in the lobbies and making new ones."

Our worthy contemporaries, the Times-Dispatch and the News-Leader have their "own convictions" and so have the rest of us, and among the most prominent of ours is that the only "safe and sure" thing for the Democrats to do is get together and stay together before and after the convention even though Mr. Bryan should be again chosen as leader. Any other policy means disaffection of party, menaces the highest good of the people, lead, to one man power and is pregnant with big-headism. What nonsense that those Massachusetts democrats should hold two separate conventions under the same roof. They are not big enough to divide by two "no how."

And don't forget that Petersburg had its horse show and that it was a brilliant success.

At the present prices of things the Washington Herald hasn't much hope for a dollar dinner.

How about Daniel and Folk for 1908? It reads to us like a winning team, but Mr. Bryan will get it if he wants it.

After the Road Board.

Mr. Editor:—I write this letter to you, asking for information.

Is this community our roads are in an impassable condition in very many places. We have begged of the Road Board help without success. We have paid our taxes promptly and in them was a good, heavy road tax. The road commissioner rod over, or rather walked over the roads in this section and told his horse—being unable to ride on account of conditions of the road—the other two members of the board have not passed through here for years;

So far as we know now, the information we want is this

Are the members of the Road Board bonded officers and can we sue them, or must we proceed against Capt. Thomas Stratton, the Chairman of the Board of Supervisors, or do we have to present them before the grand jury. Is there any method by which we can proceed at once against them so as to get some of these places fixed before winter.

Near Bent Creek, our railroad station, the roads are simply in a fearful condition. At the last meeting held at Maple Grove church, near Bent Creek, part of the congregation on the Tower Hill side were compelled to leave their vehicles and walk the last mile on account of the impassible roads. Near Liberty Chapel we have a mile on level roads to which the attention of the commissioners have been called. It does seem as though the action, or rather the want of action of the present Board—unless something can be done for our relief—will close our churches and suspend all business traffic. At a burial at Tower Hill recently the funeral procession was compelled to abandon the public road and drive through the fields to reach the place of burial.

Will you please tell us what our rights are in the matter, if indeed we have any rights at all?

Now Mr. Editor, we do not want to criticise any officer of our county, but it does seem to us that when a community pays its taxes cheerfully and in a law abiding manner, to say the least of it, it is simply unjust to us to have the Road Board to so utterly and entirely disregard all of our rights in this manner and we feel that necessity drives us to take this stand for our rights and we request you to tell us through the columns of your paper what is the proper method of procedure, and much oblige

Juggler Marriman is likely to let fall some of those railroads he has kept up in the air so long.

That $1,200 preacher who is marrying the $1,200,000 heiress will have a hard time living within his salary.

The idea that in an age of Richmond Pearson Hobson the journey to the pole had to be given up for the lack of wind!

The Mayor of Alton, Ill., kissed a thousand babies at a picnic. It is this sort of thing that makes men think twice before they enter politics.

When we protest against the Japanese killing thousands of Koreans, they point to the gentle and kindly way in which we assimilated the Philippines.

A Mineral Water that Defies Drugs
NATURE'S GREAT BLOOD TONIC

The recent drug exposures in this Country have proven to all that deadly poisons and stimulants lurk in many Patent Medicines. You never know when you might be taking some of that class.

Nature has made ample provision for restoring vigor and vitality to humanity, and the public, as well as doctors, resort to Natural Remedies, when all others have failed.

Are you troubled with **Dyspepsia, Nervousness, Malaria, Kidney or Bladder Trouble, Chronic Diarrhœa or Dysentery**, and above all, that dreadful disease **Scrofula**, which has almost baffled human skill, or **Diseases peculiar to Females?**

Piedmont-Bedford Concentrated Iron & Alum Water

Is Nature's Remedy for Nature's Ills. Yes, when you consider that disease comes from impoverished or run down conditions of the system, this Natural Mineral Water furnishes the system what it needs.

The analysis of this Water, shown on the bottle, tells you what **Nature thinks you should take when sick**, and the doctor who reads it will agree.

Do you think the grouping together in this Water of 17 different minerals, which are recognized by medical writers as **most powerful blood tonics**, could have been accidental? Reason answers, NO!

An 18-oz bottle of Piedmont-Bedford Concentrated Iron and Alum water contains all the minerals of 25 gallons of the average natural water—Then **why buy a barrel of water when you can get a bottle of minerals at the trivial cost of one dollar.** The dose is a teaspoonful in a glass of your own spring water.

How this Water acts upon the system is not clearly known. It is judged mainly by its works. It has cured all the diseases numerated above, and many more, evidently through its action as a powerful **BLOOD TONIC.**

We have many valuable certificates, which we will be glad to mail, if you are interested.

Tribute to Dr. W. H. Abbitt.

Editor Times.—I wish as briefly as I may, to pay my humble tribute to Dr. W. H. Abbitt. I had the honor of having been his pastor for a few years. I feel keenly my personal loss, for in him I have lost a friend and personal councellor who was ever ready and willing to do the substantial thing. For two years so intimately associated with him in the Master's work, we had been so closely drawn together in our communion, as to be akin to that of father and son had been engendered. Dr. Abbitt was one of the most distinguished laymen in the Appomatox Association. He was an earnest christian, a profound scholar and a public consecrated man. No single man has helped me more toward right thinking and living than my deceased friend and brother whom I loved almost as a father.

How shocked when I heard of his death and tried to realize the great loss to all who knew him and the cause of Christ. I thought of Paul's words: I have fought a good fight, I have finished my course, I have kept the faith."

"Know ye not that there is a prince and a great man fallen?"

B. Gibson resided at the time of his death. The farm contains 69 Acres, besides an island of 80 Acres.

Spring, with a Kitchen in the yard, and a Well of the best water in the county. Convenient to the house is a

Ice House and Smoke House,

There is an orchard of about 700 or 800 well assorted Apple Trees in full bearing, besides a large variety of Grapes, Plums, Pears and Damsons.

This is one of the most desirable farms on James River, being situate in a good neighborhood, convenient to School, Church, Post Office and Depot, with good roads leading in every direction from the farm. Valuable Slate Deposits.
